

# ECO VISION STATEMENT

ICON Modular India Pvt. Ltd. **ECO VISION** is to design, manufacture & deliver environmentally sustainable products by adopting environmentally friendly strategies.

So, we are proud to move our steps toward promoting eco-friendly business practices. Endeavour to protect and sustain our environment at every stage from development and production to customer use and disposal.

At the time of designing or re-designing a product we focus on green design strategies achieving our environmental objectives. Maximum use of recyclable materials, designing products using the concept of being able to recycle it when its use is done. So, it reduces the impact of the product on the environment.

At the time of manufacturing, we focus on adopting environmentally-friendly operations in which we use fewer natural resources, reduce pollution and waste, reuse materials, and moderate emissions in their processes, manufacture and produce products using less energy. Choosing non-toxic, sustainable-produced or recycled materials which don't need as much energy to process. Produce products that are long lasting and better functioning so there is less replacement and further use of products.

Be Eco Friendly and Go Green is part of our company core mission in which we say "what we do today impact our world tomorrow". So, we conduct our business and develop our products and optimize our business processes to protect and sustain our Earth.

Helping customers sustain their businesses, lifestyle and passions. Our mission is to design products to help businesses save time, reduce costs, and safeguard health and comfort with minimal environmental impact.

Our primary goal of green manufacturing is on reducing pollution, conserving energy and natural resources, and making safer products for consumers.
